## From the Principal

During the past school year, our school has been preparing for our 5-Year School/Diocese Accreditation visit which is scheduled for the third week of March. Cognia, (formerly Advanced Ed) will send an accreditation team to visit our Diocese and school. It is important to note that the Cognia Accreditation meets all KESA and Kansas State Department of Education Accreditation requirements. To prepare for the upcoming visit, we have worked to complete a series of data reviews, review of standard's document and School Assurance's. Earlier, we completed a Self-Study. The Self-Study is a formal review process resulting in a document that describes school organization, curriculum, instruction, assessment, accountability, along with school culture and student supports. Analysis of student, staff, and parent surveys also play a critical role in the accreditation process. The entire process allowed us the opportunity to reflect back at some of our successes as well as identify our challenges. This accreditation process works to make our good school even better!

In closing, I would like to state it is exciting to be part of the Sacred Heart Jr-Sr High School community. SHHS offers a challenging academic program, outstanding co-curricular and extracurricular programs, and exciting school-sponsored events throughout the school year. It is an honor and privilege to serve as the leader of this school and look forward to working with the wonderful SHHS community of teachers, parents and students to continue to provide exceptional learning experiences for our students.
